Home Runner

Is a machine Code, Arcade style game. The object of the game is to get your man to run from the base of the screen to his HOME in the top right hand corner!

To do this, he has to avoid being bitten by the giant spiders which are voraciously trying to catch him. They start at the top of the screen and descent through holes in the levels, filling them in behind them. But.... to do this another hole appears in that same level.

Whilst all of this is going on, a BONUS counter is counting down, so that when you reach HOME, you score the remaining BONUS.... The quicker you are the more you score.
